PROFESSIONAL SUMMARY

Quality Assurance professional with 2+ years of experience ensuring the reliability, scalability, and compliance of enterprise banking systems. Demonstrated ability to lead SIT/UAT cycles, design test strategies, and collaborate with cross-functional and vendor teams for major transformation projects, including NGBS deployments and core banking modernization at KB Bank. Skilled in test planning, regression testing, SQL data validation, defect management, and requirements analysis. Highly adaptable and eager to learn, with a continuous improvement mindset and a commitment to delivering high-quality, risk-mitigated solutions in fast-paced financial environments.

PROFESSIONAL EXPERIENCE

Quality Assurance | KB Bank (PT Bank KB Bukopin Tbk)

Jan 2023 – Dec 2025 | South Jakarta, Indonesia

- **Led System Integration Testing (SIT)** for the Treasury System, validating transactional workflows, ensuring data accuracy, and safeguarding alignment with core banking operations to maintain compliance and system stability.
- **Orchestrated end-to-end QA processes** for critical banking platforms, including the Loan Origination System (LOS) by developing test scenarios, executing SIT/UAT cycles, monitoring defects, and coordinating issue resolution across multiple vendor and internal teams.
- **Managed QA leadership responsibilities** for RTMS (Real-Time Monitoring System), OPICS (Bloomberg-integrated), and Common Function modules, overseeing testing roadmaps, risk identification, timelines, and cross-team coordination with Treasury and IT stakeholders.
- **Executed functional, regression, and integration testing** for mobile banking features (Wokee and Star Banking), ensuring consistent performance across iOS and Android platforms.
- **Conducted defect analysis**, retesting, and validation activities to ensure production readiness and minimize critical issues before deployment.
- **Performed SQL-based data validation and workflow verification** to maintain transaction accuracy and system integrity across banking applications.
- **Supported QA activities** for the Pola Bayar project, validating loan workflows and data integrity.
- **Collaborated with the HR team** on QA validation for the HCIS internal application, ensuring usability, data consistency, and system alignment with employee management processes.
- **Served as a user-side QA interviewer**, conducting technical and practical assessments of QA candidates to ensure alignment with organizational standards and project-level expectations.

Business Development Officer | Widya Robotics

May 2022 – Nov 2022 | South Jakarta, Indonesia

- **Identified potential clients and managed B2B projects** involving AI-driven solutions for various industries.
- **Collaborated closely with key stakeholders**, Marketing, and Technical teams to align business needs with product capabilities.
- **Built and maintained strong relationships** with new and existing clients to support long-term business growth and retention.
- **Handled end-to-end administrative tasks**, including proposal preparation, client documentation, and contract support.
- **Served as a speaker in webinars** focused on Artificial Intelligence, supporting brand awareness and client education.

Web Developer & Documentation Specialist Intern | PT Telkom Indonesia (Persero) Tbk

Jun 2020 – Jul 2020 | Semarang, Indonesia

- **Developed a full-stack internal document monitoring web application**, including front-end interface design, back-end logic, and database integration to streamline internal documentation workflows.
- **Implemented responsive UI components**, optimized page performance, and ensured cross-browser compatibility to enhance user experience for internal stakeholders.
- **Built and maintained server-side functionalities**, API endpoints, and data processing features to support seamless document tracking and retrieval.
- **Conducted functional testing, debugging, and code optimization** to ensure reliable, secure, and high-performing system operations.
- **Documented company events** and produced internal news articles for the corporate information portal, collaborating with multiple teams to ensure accuracy and clarity of published content.

TECHNICAL & SOFT SKILLS

- **Testing & Methodologies:** Test Case & Test Plan Development, Manual Testing, System Integration Testing (SIT), User Acceptance Testing (UAT), Regression Testing, Functional Testing, Defect Management, Bug Tracking & Reporting, Requirements Analysis.
- **Tools & Databases:** Database Query (SQL), Advanced Excel, Postman, DBeaver.
- **Languages:** Java, Python, C# .
- **Soft Skills:** Leadership, analytical and critical thinking, effective communication, problem-solving, time management, detail-oriented execution, stakeholder collaboration, teamwork, and presentation/public speaking skills.

EDUCATION

Informatics Engineering | Telkom University | Bandung, Indonesia

- **Final Project:** "Car Battery Power Monitoring and Prediction System Using Microcontroller Based Linear Regression Method" – Developed a predictive monitoring system utilizing microcontroller integration and statistical modeling. Presented research findings and system implementation in academic seminars, demonstrating analytical, technical communication, and problem-solving capabilities.
- **Organizations:** Leadership roles and active participation in BPM HIMA Informatika & IKASEMA (Sponsorship, Logistics, and Roadshow event committees).

PUBLICATION

- **"Car Battery Power Monitoring and Prediction System Using Microcontroller Based Linear Regression Method"** – *Media Informatika Budidarma Journal* (Nov 2021). Published research focused on developing a real-time car battery monitoring system with predictive capabilities using microcontroller technology and linear regression methods.

CERTIFICATIONS

- **ISO/IEC 27001:2022** – Certificate of Attendance Technical (September 2024)
- **Technical Support Fundamentals** – Coursera (September 2021)
- **Computer Networking: The Bits and Bytes** – Coursera (September 2021)
- **Introduction to TCP/IP** – Coursera (September 2020)
- **Praktik Kerja Industri** – PT Telkom Indonesia (July 2020)
